NATURAL RESOURCES

Premier Greenfield has received, along with the premiers of Manitoba, and Saskatchewan, a definite offer from Premier McKenzie King, of the dominion government with respect to the transference of the natural resources from control of the dominion government to the three provincial governments. Premier Greenfield informed the legislature on Tuesday that this offer had been received and was now being considered by the provincial government. In brief, the offer of Premier King is that the government of the three prairie provinces relinquish the subsidies now being received in lieu of lands of the provinces in control of the dominion, and in return receive these lands and natural resources. In this way, all transactions of the past would be ignored. Premier King states, however, that should the provinces wish an accounting of past transactions, he would not object to such an accounting by an independent tribunal. Premier Greenfield has, not yet intimated what the Alberta government's attitude toward the offer will be. He promised to keep the legislature fully informed as to the progress of negotiations.

BLAIRMORE TO HAVE FINE GOVERNMENT BUILDING

Mr. MacDonald, supervisor of provincial government building, was in town the early part of the week, accompanied by Inspectors Bavin and Nicholson.

The object of their visit was to look over sites suitable for a court house and jail. Several sites are being considered, and it looks as though the one to be chosen is on Victoria Street East, near the residence of Solicitor Putnam.

From what we can gather, it is proposed to use six lots or a square of land 160 x 116 feet. The building will be modern in design and of fire-proof construction, and will comprise barracks of the A.P. Police and jail, court room, jury rooms, etc.

When the proposed building is completed, it is likely that both the district and supreme court sessions will be held here, the former about six times annually and the latter four times.

received and was now being considered by the provincial government. In brief, the offer of Premier King is that the government of the three prairie provinces relinquish the subsidies now being received in lieu of lands of the provinces in control of the dominion, and in return receive these lands and natural resources. In this way, all transactions of the past would be ignored. Premier King states, however, that should the provinces wish an accounting of past transactions, he would not object to such an accounting by an independent tribunal. Premier Greenfield has, not yet intimated what the Alberta government's attitude toward the offer will be. He promised to keep the legislature fully informed as to the progress of negotiations.

U. M. W. OF A. LOCAL HOLD MEETING

A meeting of the U. M. W. of A. local was held in the Vet's Club last night to hear the report of the wage scale committee and the report of the Calgary conference between the miners and operators. President Kennedy occupied the chair and Tom Price, district representative, was also present, and read the reports, which were accepted by the meeting. A general discussion followed the reading of the reports and several questions were asked. It was pointed out that if the miners accepted the operators' new scale, their average daily wage would be \$3.69. This wage would hardly permit the miners to live and as one member pointed out, they would hardly pay their bills now, without taking a reduction like that offered by the operators. Referendum strike ballots were being sent to the different locals to ascertain if the men were ready and willing to strike on April 1st in the event of no agreement being reached. It was very evident that the miners will not accept the new scale of the operators. The men were also informed that in the event of a strike they would receive moral and financial support from the Union. When asked if the miners and operators would meet again, the representative stated that it was the operators who had been responsible for the breaking off of negotiations and that they were quite serious in their new scale ranging from \$3.25 to \$4.50 per day. The operators would not guarantee more work either if the new scale was accepted.

One member pointed out that if the operators scale was accepted, it would mean that a half a million dollars per month would be taken from them. This was the difference in the new and present rate and would not only mean less money for the men, but less money for other lines, as the miners would not have that money to spend and circulate.

In the matter of relief, one member declared that the merchants would cut off their credit as soon as work ceased. This brought forth considerable discussion and one miner stated that if the merchants did not want to see a strike, they should bring their own prices down nearer to normal.

The operators also asked in their new agreement that the check-off be eliminated. The reason for this, it was explained, was that the operators claimed that the Union had been donating sums of money to newspapers that were detrimental to mining operations. The operators, however, did not bring forth any proof to substantiate this statement.

The meeting adjourned at 9 p.m., and another meeting will be held next Sunday when the miners will determine some definite stand they will take in the event of no agreement being reached by April 1st.

BLAIRMORE WINS CHARBONNIER CUP

Bellevue and Blairmore played one of the best games of the season at the local arena last Friday night, with the locals finishing victors by a score of 6-4. The game was hockey, fast and furious from start to finish, with Blairmore having the best of it. Scoring was done for Blairmore by Pruden 3, Turner 2 and LeVasseur 1. Bellevue's goals were scored by Dewar 2 and O'Grady 1. Arthur Kelly refereed the game.

By winning this game, Blairmore won the right to play-off with Coleman, who had already defeated the league winners 3-2 on their own ice. This game was played at Coleman on Monday night last, with the locals winning again to the tune of 6-2. The game was somewhat rough and the

locals had the lead all the way thru. These two wins gives Blairmore the Charbonnier Hockey trophy, which is a beautiful cup, very suitably engraved.

On Tuesday afternoon the house passed a resolution of congratulation to Princess Mary on the occasion of her marriage to Viscount Lascelles. The resolution was moved by Premier Greenfield and seconded by J. R. Boyle.

Remember the auction sale to be conducted by Auctioneer Ed. on Monday next at the ranch of C. F. Sedgwick, at South Fork. If present weather continues roads should be in pretty fair condition.

The missing ballots in connection with the disputed Calgary election were found at Calgary after days were spent turning over sacks and documents at Ottawa. The appeal of R. B. Bennett is now proceeding.

MISS NELLIE COLLINS

"I have been thankful a thousand times that I took Tanlac when I did. It is simply wonderful the way it has benefited me," said Miss Nellie Collins, 1320 Connecticut Ave., Bridgeport, Conn.

"About eighteen months ago my appetite began to fall and I seemed to be going into a decline. Nothing agreed with me and my nerves were keyed up to such a high pitch I was actually afraid they would snap in two.

"But Tanlac has brought about a wonderful change in my condition. My appetite is almost ravenous, my digestion is perfect and I feel as well and strong as I ever did in my life. I never dreamed there was a good medicine as Tanlac in the world."

Tanlac is sold by all good druggists.

Rhubarb in Winter

Winnipeg Gardener Growing Pie Plant On a Large Scale

Fresh rhubarb in winter time is the treat that Winnipeg citizens are enjoying as the result of experiments conducted by a Mr. Hedley, a market gardener. The rhubarb was planted in underground pits and Mr. Hedley reports that the crop this year has been very successful and that he intends to sell his product not only in Winnipeg but to Regina and Saskatoon.

Dread of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Koller's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are ward off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

West Sends Wheat to Armenia. Fifteen thousand sacks of the grain of Western Canadian farmers to the Armenians through the Relief Association, left this point for New Orleans for shipment to Constantinople. Appeals for aid for Armenia found a ready response among Manitoba and Saskatchewan farmers, donations being from two to five bushels per load.

WORLD HAPPENINGS BRIEFLY TOLD

Alberta may get a colony composed of eleven thousand former members of the Royal Irish Constabulary.

A \$3,000 watch for a scientist has been completed by S. Smith and Sons, of Trafalgar Square, London. It is said to be the most complex watch in the world.

About sixty waiters went on strike at the King Edward Hotel, Toronto, because the management refused to accede to the men's request that the hotel discharge the waitresses.

Burglars broke into a house at Shortlands, Eng., and took an overcoat and other belongings. Contents of a sewing basket on the table showed the intruders had stopped to repair the coat before leaving.

A market for four thousand sheep taken to Ontario from Alberta by H. C. Harvey, and fed on elevator screenings during the winter, has been sold in New York and Boston. Mr. Harvey says the experiment will be repeated next year.

Seventeen cruises have been received for the James Gordon Bennett Balloon Cup race, which will start at Geneva on Sept. 3. Three balloons have entered each from France, Switzerland, Belgium, Italy and England, and two from Spain.

The Red Scythe of the Turkish Nationalists is again cutting a swath of death. One thousand Christian women and children are reported to have been ruthlessly massacred in the region of Samsa by the Moslem forces.

The police recovered about 5 cwt. of explosives, including gelatin and ammonium from the back courts and ash bins in the east end of Glasgow. There is sufficient, it is estimated, to blow up half of Glasgow. The theory is that the explosives were removed from Sinn Fein arsenals, the holders fearing a raid by the authorities.

Colic, Cramps, Stomach Pains Need a Quick Relief

Security against these sudden ills consists in always keeping handy a bottle or two of Morrill's. No family should ever go to bed unless Morrill's is in the house. It fulfills so perfectly every desire of a pain remedy that once used, you'll never again be without it. Money can't buy greater assurance against the small ills that constantly arise in every family than you get in a 35c bottle of Morrill's. Sold everywhere.

A Magnified Baby. Fond Mamma—Here's a photograph of my little boy when he was a baby, and I want you to make one of him as he is now.

Photographer—But haven't you brought him with you?

THE WORLD'S GREATEST HEALER

May Erect Coal Bunkers. Negotiations for the erection of large coal bunkers for the storage of coal at the new pier being carried on by Alberta colliery owners at the office of Vancouver and Prince Rupert. The coal will be used for bunkering and other purposes.

KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are so changeable—on day bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Factories in Edmonton

City Has Over One Hundred Manufacturing Establishments. Edmonton is not generally recognized as a factory city, yet judging by statistics recently published by the Board of Trade it may lay some claim to the status. More than one hundred bona fide manufacturing establishments are to be found in the city, all producing goods of a wide variety. The Board made the census with an eye on the forthcoming made-in-Edmonton exposition to be held in the spring.

Thinks Swearing All Right

Yes, providing the provocation equals the offence of Jones stepping on Smith's sore corn. For better to use "Putnam's" Painless Corn Extract, it does lift out corns in a hurry. No corn can last if "Putnam's" is applied. Refuse a substitute, 25c everywhere.

Weed and Stubble Burner

Canadian and United States patents have been granted to a resident of Saskatchewan, H. S. Service, a farmer of Briceport, on a weed and stubble burner. It is claimed a machine of this kind can be built that will burn up the weeds, and clear up the land at a nominal cost.

Toys were packed in cheap casks exported by Germany before the war, to have space.

A Palm Beach Frock of Red and White Crepe

By Marie Belmont

Palm Beach continues to stress the vogue for red and white which it inaugurated a year ago. Smart society would not consider its south-going wardrobe complete without a number of frocks in this smart color combination.

Red rings printed on white crepe make this gay little model of youthful line. Ecru basiste completes its daintiness. The becoming surplice bodice is finished by a smart ruffled and streamers of black grosgrain.

The bone bracelets are of red and black and serve charmingly to carry out the costume design. The tad of collecting colored bone bracelets and wearing one to two to match each costume is being strongly noted.

Muscular Rheumatism Subdued. When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and constant until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

Big Output of Trail Smelter

More Than Four Hundred Thousand Tons of Ore Handled in 1921

During the year 1921 the Trail Smelter handled more than four hundred thousand tons of ore, the greatest aggregate in its history. All of this, with the exception of about ten thousand tons, was from the properties of the Consolidated Mining and Smelting Company. Gold accounted in the total for 50,000 ounces; silver for 1,173,000 ounces; copper for 57,000,000 ounces; lead for 12,000,000 pounds and zinc for 53,000,000 pounds.

Dye Dress, Skirt Or Faded Curtains In Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple any woman can tint, wash, color, stock, dye, or restore faded dress, skirt, or curtains. Everything, even if she has never dyed before, can be done. The dyes are of the best quality, and the results are perfect. The dyes are of the best quality, and the results are perfect. The dyes are of the best quality, and the results are perfect.

A Useful By-product

Tons of Bobbed Hair Are Made into Mattresses. The momentum of the bobbed hair had reached a record pace in Chicago.

Careful investigation reveals that scissors of local hairdressers are executing a daily toll from 2,500 women, ranging in age from flappers to stately, white-haired matrons.

If the present rate is maintained, all the women in Chicago will be bobbed by October 22 next, a hairdresser said. This authority figures that 361,634 women daily will be saved if all the women here bob their hair.

The average amount of hair shorn in a bobbing is about three ounces. Although this hair is unsuitable for use as wigs and transformations, it is excellent for mattresses, and it is estimated that more than 3,000 class A full width mattresses can be made as a by-product of the bobbing industry in Chicago.

"What sort of a woman is Mrs. Guff?" asked Mrs. Muff.

"Well," replied Mrs. Duff. "She's one of those women who could wear a \$10,000 necklace and make it look like it came from the 16-cent store."

It pays to patronize home industry. Buy from the merchants in your own town.

Minard's Liniment for Coughs and Colds.

ROYAL YEAST CAKES

(MAKE PERFECT BREAD)

AN IMPORTANT PRODUCT OF CANADA

ROYAL YEAST CAKES
EWING & CO. LTD.
CANADA

Bread is the finest food on earth—the one food that everybody eats—that everybody likes, and that agrees with everybody.

Bread made in the home with Royal Yeast Cakes tastes better, keeps fresher longer, and is more nourishing than any other.

Uphold Pension Rights
Speaking at a reception in Downing Street, Rt. Hon. MacPherson, minister of pensions, declared there would not be a single reduction of the legitimate rights of pensioners with whom the Government intended to keep faith at all costs.

A Prime Dressing for Wounds.—In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

Canadian Goat Society
The Canadian Goat Society had a total membership of 52 for the year 1921. Pedigrees recorded to December 31st, 1921, numbered, Angoras 49, Toggenburgs 282, Nubians 151, Saanans 110, or a total for the three milking breeds of 541. New registrations received in 1921 amounted to 169 divided as follows: British Columbia 123, Ontario 11, New Brunswick 10, Alberta 3, Saskatchewan 2, Manitoba 1, and the United States 9.

CASCARETS 10¢

For Constipated Bowels, Sick Headache, Sour Stomach, Bilious Liver

The nicest cathartic-laxative in the world to physic your liver and bowels, when you have Dizzy Headache, Bile, Biliousness, indigestion, or Upset Acid Stomach is candy-like "Cascarets." One or two tonight will empty your bowels completely by morning, and you will feel splendid. They work while you sleep. Cascarets never stir you up or gripe like Salts, Pills, Calomel or Oil. Children love Cascarets too.

Wishing for sleep is a poor way to get it

A LITTLE wisdom in the daytime is a better assurance of rest than any amount of anxious wishing when nerves are a-jangle at night.

What you do at noon often has more influence on sleep than what you want and hope for, at midnight.

Tea and coffee's 'drug' element, caffeine, whips up the nerves, and when its use is continued there's usually a penalty which no amount of mental effort can avoid.

The part of wisdom, as so many thousands have found, is to turn away from nerve-stimulating and adopt rich, delicious Postum as the mealtime drink. Postum delights the taste, but brings no disturbance to nerves or digestion. Even the little children can share in the enjoyment of Postum at any meal.

It's better to anticipate warnings than to be driven by them.

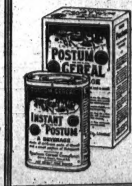

It's better to encourage and preserve sound nerves and complete health than to listen to the clock ticks at night and say, "I wish!"

You can get Postum wherever good food or drink is sold and served. An order today may be the beginning for you, of the great satisfaction and comfort which so many others have found in Postum.

Your grocer has both forms: Instant Postum (in tin) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health—"There's a Reason"

Made by Canadian Postum Cereal Co. Limited, Windsor, Ont.

BAYER

WANT RESEARCH INSTITUTE

(Canadian Press)

Ottawa, Feb. 28.—The government is being urged to provide for the establishment of a Canadian research institute similar to those already established in other countries. The need of such an institute was one of the important subjects before the council for scientific and industrial research which concluded yesterday and in the interview with the Premier and members of the cabinet the committee urged that such an institute be provided.

Dr. C. F. Harrison, under the biological committee of the council has been investigating the discoloration which of late years has frequently appeared in green salted, cured and dried codfish of the Canadian Atlantic catch and a satisfactory report from these investigations was received. A number of measures have been recommended which if consistently followed, it is stated, will eliminate the trouble.

Changes in the inland revenue regulations governing denatured alcohol are being urged by the committee. The department has accepted a recommendation for the change in the denaturants used for bathing alcohol for hospitals, and as a result this is available at \$1.10 per gallon instead of the former cost of \$4.00.

BETHOVEN AND THE BARON

Beethoven was a bad tenant. During the thirty-five years he spent in Vienna, he lived in twenty-eight different houses. Where he was living just 100 years ago the most diligent of antiquarians are unable to determine. It is said that the longest he ever lived in one place was from 1810 to 1815. The explanation of this protracted stay is easy. Baron Pasquali, his landlord, understood him and appreciated him. Beethoven, enraged, because some little thing went wrong would move out, but the baron always refused to show a "To Let" sign, saying in his affable way, "Ah, he'll come back." And the creator of nine symphonies did, until Pasquali died.

FIFTEENTH ANNUAL MUSICAL FESTIVAL

The syllabus of the fifteenth Annual Alberta Musical Festival is just to hand. The festival this year will be held at Lethbridge on May 16th, 17th and 18th. The object of these festivals is to raise the standard of music in the province and the work of the association has very wide interest.

This year's programme will consist mainly of competitions for choral societies, church choir, female choruses, male choruses, vocal quartettes, ladies' trios, vocal duets, vocal solos, young vocalists, piano solos, violin solos, violin duets, string quartettes, cornet solos, sight singing, sight playing, sight accompanying, public school choruses, Sunday school choirs.

All competitions are open to amateurs residing in Alberta, Saskatchewan and British Columbia. The word "Amateur" shall be defined as follows: Any person whose livelihood is obtained from non-musical work even if he or she from time to time accepts a stipend or honorarium for musical services rendered, with exception of those who accept remuneration for teaching that particular class of music in which they wish to compete. No teacher of singing shall compete in vocal duets, trios or quartets, and no teacher of an instrument shall compete in any class for or including the instrument upon which he or she gives instruction.

IN THE LEGISLATURE

Issued by the Publicity Commissioner, Government Buildings, Edmonton.

After a debate lasting all Thursday afternoon the legislature passed, by a vote of 42 to 11, an amendment to the Moore-Love resolution regarding adverse votes on government measures, which provides that the government of the day need not be bound to accept defeat of any government measure or resolution on occasion for resignation save when followed by a vote of want of confidence. Two members of the opposition, Mrs. McClung and S. G. Tobin, of Leduc as well as the independent members, voted with the members on the government side. Premier Greenfield, Hon. Mr. Brownlee and Hon. Mr. Hoadley did not vote. The original motion, submitted by Alex. Moore of Cochrane, and J. R. Love, of Wainwright, was as follows:

"Whereas under the generally accepted interpretation of the working of the British Parliamentary System, it is assumed that the defeat of a Bill or Measure presented to the Legislature by Assembly by a majority of the Crown officials on behalf of the Government in itself a defeat of the Government; and

"Whereas the members of this legislative assembly feel that the time has come when members ought to be free to vote either for or against any Bill or Measure before the House without thereby expressing lack of confidence in the Government;

Therefore be it resolved that this House express its desire that the Premier ought not to consider the defeat of any Government Measure or Motion a sufficient reason for tendering the resignation of his Government, unless such defeat be followed by a vote of non-confidence in the government.

The amended resolution, submitted by N. S. Smith of Olds, and G. A. Forster, of Hand Hills, and passed by the House, was as follows:

"Whereas it is the opinion of this House that freedom of speech and action on the part of the individual members should be encouraged;

"And whereas the British parliamentary convention on that a ministry should resign when it loses the confidence of the house may, unless construed in the most liberal manner, militate against such freedom of speech and action;

"Therefore be it resolved that this house express its desire that the government should not, in cases within the discretion of the government, be bound to accept the defeat of any government bill or measure as an occasion for resignation unless followed by a vote of non-confidence."

Demonstration farms established by the Alberta government have cost a grand total of \$1,175,742.33 for capital and maintenance since the policy was entered into, according to a statement made by Hon. Geo. Hoadley in the legislature on Tuesday in answer to a question put by N. S. Smith, member for Olds.

Let us, and no teacher of an instrument shall compete in any class for or including the instrument upon which he or she gives instruction. In the choir competition, all singers must have been bona fide members of the choir in which they sing from April 1st, preceding the date of competition. Choirmasters or leaders, though receiving remuneration for their services, are not debarred from assisting choirs.

Entry forms must be filled in and returned to the Secretary, with necessary entry fees, not later than May 1st.

The secretary's address is: Arthur Wade, 1254 Third Avenue South, Lethbridge—phone 2947. Copy of the syllabus may be seen at the office of The Enterprise, or be had together with entry forms from the secretary.

Annual Financial Statement And Auditor's Report

BLAIRMORE SCHOOL DISTRICT NO. 628, OF THE PROVINCE OF ALBERTA, FOR THE YEAR 1921.

STATEMENT OF RECEIPTS AND PAYMENTS—

RECEIPTS	
Cash on hand January 1st, 1921, and in bank	\$ 254.58
Cash received from Debentures sold during the year	11,814.16
Taxes collected for the Current Year	15,776.42
Arrears	2,277.24
Government Grants received by Treasurer	14,053.66
Amount Trustees borrowed by note during year	2,510.12
Received from other sources	53.63
Educational Head Tax	2,095.00
Total Cash Receipts	\$ 43,084.43
PAYMENTS	
Paid Teachers' salaries in cash	\$ 14,712.95
Paid Officials' salaries, Secy., Assessor, Auditor	950.15
Paid on Debentures	1,092.55
Paid on account of notes	7,000.00
Paid interest on notes	230.05
Paid for erection of addition, furnishing	7,230.05
Repairs to School	217.10
Paid for furniture	119.00
Paid for equipment	147.00
Paid for supplies, etc.	647.22
Paid for carting	1,845.00
Paid for fuel	829.20
Paid for insurance	2,671.20
Paid for other purposes, Refund Ed. Tax	464.00
Rest	148.31
Sundries	298.16
Total Cash Payments	\$ 42,283.98
Balance of Cash on hand and in the Bank 31st December, 1921	800.45
	\$ 43,084.43

OUTSTANDING ACCOUNTS—

AMOUNTS DUE THE DISTRICT DECEMBER 31st, 1921.	
Taxes uncollected, including arrears	\$ 13,818.07
Balance due from municipality	4,258.55
Other amounts	74.87
Total amount due the District	\$ 18,151.49
AMOUNTS OWED BY THE DISTRICT DECEMBER 31st, 1921.	
Sundry Accounts	\$ 1,769.22
Total amount owed by the District	\$ 1,769.22

ASSETS AND LIABILITIES—

ASSETS	
Estimated value of property owned by the District:	
Land and Buildings	\$ 28,960.00
Furniture, Supplies and Fuel	4,680.55
Apparatus, maps, globes, etc.	147.00
Library and Reference Books	590.00
Amount due the district, December 31st, 1921	18,151.49
Cash or Bank balance on hand	800.45
Total Assets	\$ 53,239.49
LIABILITIES	
Total of the Debenture coupons not yet due	\$ 12,660.00
Outstanding accounts owed by the District	1,769.22
Total Liabilities	\$ 14,429.22

Particulars of Assessment, Taxation, Etc., 1921—

Total assessed value—\$1,212,571.00.	
Rate of Taxation—18 mills on the dollar.	
Total amount of arrears—\$13,818.07.	
Balance due from the municipality—\$4,258.55.	
Exact cost of operation of school for the year—\$21,356.12.	
The property of the District is insured as follows:	
Buildings—\$24,500.00. Furniture and Equipment—\$1,150.00.	
The debenture indebtedness of the District:	
Remaining unpaid—\$12,660.00.	

I have examined the above financial statement and, to the best of my knowledge, believe the same to be true and correct.

J. R. GRESHAM,
Secretary-Treasurer.

Date of audit, January 28th, 1922.

Blairmore Lodge, No. 66, meets every Tuesday night at 8 p.m., in the Oddfellows' hall. Officers for the ensuing term: J. Patterson, N.G.; W. T. Patterson, V.G.; M. B. Hoffman, R.S.; J. B. Harney, F.S.; J. Montabetti, Treasurer.

Crow's Nest Encampment No. 8, meets on the second and fourth Wednesdays of the month in the L.O.O.F. hall at 8 p.m. Officers for ensuing term: J. Patterson, C.P.; W. T. Patterson, S.W.; A. Morency, J.W.; Wm. Patterson, Scribe; J. Montabetti, Treasurer.

Bellevue Lodge No. 118, meets every Monday night at 8 p.m. Officers: F. Padgett, N.G.; H. Jepson, V.G.; H. Barlow, R.S.; J. Watt, F.S. Amalgamate Encampment No. 17, Bellevue, meets the first and third Wednesdays of the month. Officers: A. B. Carr, C.P.; Stephen Berry, R.S.; Harry Jepson, S.W.; Fred Padgett, J.W.; E. Exoffim, Treasurer; Charles W. Bay, Scribe. Box 9.

Ray of Hope Rebekah Lodge No. 67, meets the first and third Wednesdays of the month. Officers: Sister Christie, N.G.; Sister Earless, V.G.; Sister F. Hallworth, R.S.; Sister Litchland, F.S.; Sister Goodwin, Treasurer.

Visitors of the Order are cordially invited to attend the above lodges.

The London Times suggests Sir Robert Borden as chairman of Irish boundary commission. The suggestion is a good one and the former premier should give his decision to both parties as his decision would be fair and above board.

Montreal city hall was destroyed by fire last Friday night, with an unrecoverable loss estimated at about ten million dollars. No insurance was carried.

Remark on the gloriolousness of the stary night, a friend of ours a few nights ago said: "Well, one good thing about Alberta—we get lots of both sunshine and moonshine!"

King George has conferred the Order of the Garter upon Arthur J. Balfour in recognition of his services at the Washington conference. This is the highest honor within the gift of the king.

Now we understand the meaning of "high church," since we have discovered that English bishops get from \$20,000 a year upward and the archbishop of York and the bishop of London get \$50,000 a year each.

We understand that William Randall, who has given acceptable service since the opening of the branch of the Home Bank of Canada here as ledger keeper, is now promoted and transferred to a branch of the bank at Siskiyaw, Saskatchewan.

The collapse of recent strikes should impress on labor leaders and their followers that without popular support no strike can succeed and that today the public looks with absolute disfavor on strikes called to keep up prices of the necessities of life.—Ex

While walking the C.P.R. track near Cowley on Friday last, a man named Nicknorik was hit by a train and rendered unconscious. On examination it was discovered he had suffered a broken leg and severe bruises. He was taken to Macleod hospital for treatment.

During the year 1921 the Trail Smelter handled more than four hundred thousand tons of ore, the greatest aggregate in its history. All of this, with the exception of about ten thousand tons, was from the properties of the Consolidated Mining and Smelting Company. Gold accounted in the total for 50,000 ounces; silver for 1,173,000 ounces; copper for 27,000,000 ounces; lead for 52,000,000 ounces and zinc for 53,000,000 pounds.

The initial number of the official organ of the United Farmers of Alberta came to hand this week and appears to be rife with live up-to-the-minute items of interest to organized farmers. The first number contains an able foreword from the pen of President Wood. This paper is a natural outgrowth of the farmers' organization. The editorial ideal will be to develop higher citizenship through investigation and education. It will be published twice a month from the head office, Calgary.

Creditors have better memories than debtors.

After all, the surest way to elevate the human race is to raise children that can behave themselves.

One thing may be said of the majority of calves in this district—they don't develop foot and mouth disease.

The business for some time being conducted by Cuccolone and Denotaris at Coleman is being wound up by mutual consent.

The influenza epidemic, which has claimed 544 lives in New York since January the 1st, has officially been declared at an end.

H. Oelund, of the Lethbridge law firm of Oelund & Brown, spent a day in town last week, enroute to Portland, Oregon, for a few days.

Henry Ford gave a cheque for \$8,000,000 for the Lincoln Motor Company property. The revenue stamp on the cheque amounted to \$4,000.

This can be said: That working for the municipality or the government is such a snap that a man doesn't mind working ten hours for a five hour pay.

Montreal city hall was destroyed by fire last Friday night, with an unrecoverable loss estimated at about ten million dollars. No insurance was carried.

Remark on the gloriolousness of the stary night, a friend of ours a few nights ago said: "Well, one good thing about Alberta—we get lots of both sunshine and moonshine!"

J. D. S. Barrett and family were down from Coleman on Sunday.

The marriage of S. Byo to Miss Wilson was solemnized last week end by R. W. T. Young.

America's lath production since 1850 would reach three thousand times around the world.

Most women qualified to give advice at a mothers' meeting haven't time to get there to give it.

Some change is to be made in the personnel of the local teaching staff towards the end of the present month.

Mr. and Mrs. Babcock, representing McLean's national publications, were canvassing in this district last week.

The city of Swift Current, Saskatchewan, has been placed in the hands of a receiver by the Canadian Bank of Commerce.

There are 9632 Rebekah lodges of the I. O. O. F. throughout the world, with a total membership of 925,840. Of this number Alberta has a membership of 4422.

Large numbers of people visited the new Greenhill hotel on Sunday last and were shown through this beautiful hostelry by the genial proprietor, Mr. Porter.

During these hard times it is hard to understand why some people spend the bulk of their incomes on their backs, and then fail to get them more than half covered.

The Trail hockey club issued an invitation to the Towers team, of Vancouver, to play an exhibition game on Trail ice. The Towers proposed terms of \$1000, so there was nothing doing.

Among recent appointments of commissioners for oaths we note the following: Alfred Francis Graetz, Macleod; Albert F. Short, Coleman; E. Forster Brown, Macleod; Alois I. Blais, Frank.

A creditable report of the financial condition of the local public school will be found elsewhere in these columns. It will be noted from this report that the addition made to the school building last year was practically paid for by tax arrears collected during the year.

Smiths are not represented in the Dominion parliament. Hon. Charles Stewart's election in Argenteuil makes five Stewarts in the House of Commons, the others being elected in Humboldt, Lark, Leeds and West-Hamilton. There will be four Kennedys, three Kings, but only one Brown and not a single Smith.

A bomb thrown into the pit of a Methodist Episcopalian church in the city of Montreal during the morning service on Sunday last did not have the result desired by the criminals. Although the bomb exploded, no damage was done. The cool headedness of the pastor prevented a panic.

J. C. Boudreau, now of Calgary, but formerly connected with the Franco-Canadian Collieries at Frank, is reported as winning \$1600 in the Calgary Albertan guessing contest. It is a puzzle to know why the authorities will not permit a person to take a chance on a \$25 lottery, yet permit this apparently wholesale gamble to continue.

A comparison of some of the expenses incurred by the three candidates for Macleod Riding in the recent federal elections may be of interest. For instance: Hire for meeting places—Gillis \$55.00, Shaw \$364.00, Cote \$383.30. Advertising—Gillis \$203.85, Shaw \$788.18, Cote \$257.93. Services—Gillis nil, Shaw \$984.06, Cote \$770.73. Candidates' personal expenses—Gillis nil, Shaw \$475.00, Cote \$198.45. Traveling expenses—Gillis nil, Shaw \$75.55, Cote \$106.28. Contributions to cover expenses—Gillis \$208.85, Shaw \$2321.49, Cote \$2389.67.

More Needed

John D. Rockefeller took a little girl in Cleveland to ride in his car, and after she had comfortably seated herself he asked her, "Where would you like to go?" "Oh, I don't care," the little miss replied. "Where do you want to go?" "I," Mr. Rockefeller replied, with a twinkle in his eye. "I want to go to heaven."

Cowley Happenings

Mr. Tait was a visitor here the early part of the week.

C. Elton has returned from a business visit to Macleod.

Mrs. Cleland has returned from Lethbridge, where she has been visiting.

Mrs. Littleton and Mrs. B. O. Morrow were Saturday visitors to Blairmore.

M. A. Murphy is attending the Royal Arch Masons in Calgary this week.

A very pleasant afternoon was spent at the home of Mrs. J. Edwards on Thursday last, the occasion being the monthly meeting of the Ladies Aid.

The Canadian National Railway is doubling their orders with a great many coal companies in the East.

The Ferguson drug store at Macleod has been broken into and robbed three times in succession lately.

Fourteen lives were lost in a collision on Saturday between a New York Central passenger train, and an automobile bus.

Owing to the water connection with the main being frozen up as a result of the shut-off on Tuesday, the public school had to be closed for a few days.

Nearly 128,000 American autos passed the Niagara border into Canada last year, and it is said that these tourists spent fifty-seven million dollars in the Dominion.

Born, on the afternoon of Tuesday, March the 7th, at Greenhill Apartments, to Mr. and Mrs. A. E. McPhail, a ten-pound daughter. Both mother and father are doing well. Congratulations.

If a man falls in love with a widow whose name is Elizabeth, who has two children and the man marries her, he gets what? Why a second-hand Lizzie and two run arouts.

A couple of lady hockey teams are practicing on Coleman ice for a game to be staged soon in competition for a cup. We understand that a team of "old reliable" will challenge the winners, any weight gloves and Marquis of Queensbury rules.

A local chap was in the White Lunch at Taber a few weeks ago and was asked by a chum what he knew about "vencer." He replied that he knew how to use the term and put it this way: "I voy dry comin' down on the train, but struck lots of vickey ven 'ere."

A carload of the latest model Studebaker cars arrived this week to the order of the Crow's Nest Pass Motors, and have been unloaded. There are exceptionally high class and quality, and most attractive. Quite a number of parties have been viewing them and we understand prospects that quite a number of them will be sold around The Pass are good.

Dr. Olivier's Humphreys, which was seriously damaged on Christ mas Eve by collision with a runaway horse, has come out of the garage of the C.N. Pass Motors, where repairs were effected under the able supervision of Arthur Sharrer, foreman of the motor mechanics. The car is now in the hands of passengers and will be out in a few days as good as new.

Discontent In The West

Round Table Conference Would Help To Smooth Away Difficulties

Just as soon as the seat of government becomes a sort of far away place in the eyes of a strong minority of the people governed, just as soon does a spirit of discontent spring up. Absent treatment is just as damaging in government as it is in other classes of activity. If the capital of Canada was moved to Winnipeg much of the discontent on the part of the West would disappear, but a very pronounced way of discontent would sweep across the Maritime Provinces. There is more in the question of location of the seat of government than meets the eye. This is forcibly illustrated by a smaller scale by the agitation which is going on at the head of the Lakes in favor of creating a new province out of a certain section of New Ontario. Residents of Fort William and Port Arthur complain that the Ontario Government by neglecting their district; does not understand the requirements of the district and owing to lack of knowledge of it, is unsympathetic towards it. This is a straight case of dissatisfaction created by an absent treatment.

Ottawa is a long way from Western Canada. When a delegation goes East from the West it is something akin to a pilgrimage. The West is distinctly East and the Westerner is ill at ease within its confines. The atmosphere is different and the Westerner is not impressed. This is a matter of psychology—the mere fact that Ottawa is so far away from the West is the real root of our grievances although it is difficult to unearth this root sometimes.

Notwithstanding all this, we have some real troubles in the West, including the failure to hand over our natural resources to the provinces, freight rates, tariffs, etc. The Toronto Globe suggests that we should have a general council of the nation on the western situation. This seems to be a very reasonable proposal. On many occasions the Prairie Provinces have found it worth while to have conferences of their cabinet ministers and the idea of extending the scope of such conferences is a good one. Uniform legislation, united action where Provincial and Federal interests seem to clash and exchange of opinions on matters of national importance would be facilitated by round table conferences such as the Globe suggests. It is remarkable how easy it is to smooth out difficulties when the interested parties get together—Ireland is a notable example—Canada Finance.

The Destructive Fungi

Causes Enormous Damage to Plants and Life of Timber

Mushrooms, being sizable plants are familiar objects in nature. They are the plants of the great tribe of the fungi, which endures a wide range of species, most of them so small as to be microscopic. Among them are numbered the "yeasts," which make fermentation and are indispensable to the wine-producer and the home-brewer, converting starch into alcohol. The housewife buys, in the form of a little cake, a pure culture of a species of fungus, which feeds on the starch of her dough and generates carbonic acid gas, causing her bread to rise.

Other minute fungi are the so-called "molds," which, when conditions favor growth, develop unpleasantly on foodstuffs in the housewife's pantry or storeroom. They will even attack shoes where there is dampness. Countless agencies (corresponding to seeds) of microscopic fungi are about everywhere in the air. Nearly all diseases of plants are caused by parasitic species, which are the farmers' worst enemies and the most destructive foes of the forests.

The annual loss caused by forest fires is enormous, but it is no greater than that attributable to the fungi, which rot, mine timber, bridge timbers, telegraph poles and other structures of wood, necessitating their replacement. The "life" of the average railway tie is seven and a half years; if fungi would let it alone it would last twice that long.

Money In Hogs

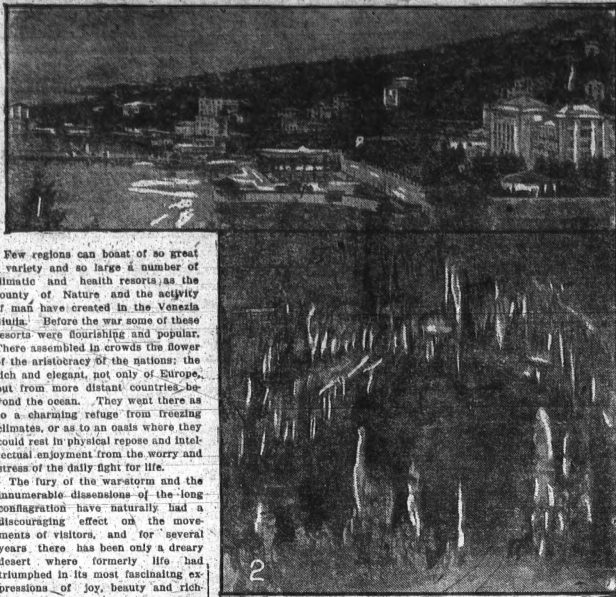

A special train under the auspices of the Provincial Department of Agriculture, will soon tour Alberta in an effort to stir up greater interest in hog raising, especially bacon hogs. The train will be equipped to demonstrate slaughtering, bacon making and other branches of agriculture.

Traffic Manners

Our notion of perfect traffic manners is exemplified by that London automobile driver who, when a pedestrian stopped and stood in the way of the car's horse, leaned over and asked: "If any sir, may I ask what your plans are?" Now York Morning Telegraph.

N. W. U. 1467

Italy's New Riviera

Few regions can boast so great a variety and so large a number of climatic and health resorts as the bounty of Nature and the activity of man have created in the Venetian Riviera. Before the war some of these resorts were flourishing and popular. There assembled in crowds the flower of the aristocracy of the nations; the rich and elegant, not only of Europe, but from more distant countries, beyond the ocean. They went there as to a charming refuge from freezing climates, or as to an oasis where they could rest in physical repose and intellectual enjoyment from the worry and stress of the daily fight for life.

The fury of the warstorm and the innumerable dissensions of the long configuration have naturally had a discouraging effect on the movements of visitors, and for several years there has been only a dreary desert where formerly life had triumphed in its most fascinating expressions of joy, beauty and richness.

A journey in this beautiful country, now in full process of rebirth and development, offers the greatest artistic attractions and rich and varied material for observation.

Take Abbadia for example. Abbadia, on the eastern coast of Istria, in the embrace of the Quarnero, slopes gracefully at the foot of Monte Maggiore (1400 m.), which protects it from cold winds. The vegetation there is superb, almost tropical, deep and vast laurel woods. Immense, fragrant flowers in profusion. The climate is excellent, the beach delightful, the sea of a fascinating blue; which with its charming walls have given world-wide fame to Abbadia.

Before the war every year 50,000 visitors passed through Abbadia during all seasons, since that fortunate district enjoys an eternal spring. Many illnesses are cured there. The best results, however, are obtained as a winter climatic station in the treatment of all diseases of the heart, of the nervous and circulatory systems, the lungs, or of any constitutional weakness. It is highly beneficial to weak or sickly babies.

An entirely different type of bathing and climatic resort is the island of Brioni, near Pola.

Brioni, until a few decades ago, was desolate, and now, thanks to Signor Koppelys, proprietor of

(1) Portorose, Italy.
(2) Grotta di Postumia.

The Great Cave.

the great hotels, established there, it is a veritable Paradise.

Brioni seems, so far as vegetation is concerned, to be a strip from the Adriatic Riviera; there are delicious woods, alluring walks, palms and genista in profusion everywhere.

The larger island was the summer abode of the Roman patricians, and there are still interesting Roman remains, ruined temples, mosaics, etc.

Moreover, there is at Brioni a large Hagenbeck Zoo, an establishment for rearing ostriches; tennis courts, etc.

But the specialty is a huge swimming bath made of tiles of maljolic, large enough for two hundred persons, for hot sea-water bathing in winter.

Also at Brioni the climate is excellent. Another charming climatic and balneary resort in Istria is Portorose, near Pirano, about one hour from Trieste.

Portorose is in the neighborhood of the finest saline springs in Europe, and has one specialty truly unique, the so-called "acqua madre," which is the liquid residue of the marine crystallized salt during the summer months.

This saline "acqua madre," brought to the baths of the establishment and heated to a temperature of 50C., is

used for various medical applications for its abundant contents of alkaline and iron salts.

A balneary station of the future is Grado, in the vast Gulf of Trieste, with its splendid beach and its many bathing tents.

There are many other climatic and bathing stations in the Venetian Riviera. We must not forget Lussignea, quite near to Abbadia and with surroundings perhaps even more beautiful as regards vegetation and position, than those of Abbadia.

Noteworthy also are Lussignea and Lussignea, Cigale and Silego, with magnificent beaches and delightful climates, being perfectly adapted for the cure of catarrhal affections.

Sumptuous and elegant hotels are provided also at Parenzo and Rovigno, towns that remind one exquisitely of Venice, picturesque and interesting for the monuments of art that they possess.

The fame of the castle of Miramare, in the Gulf of Trieste, is too great to need mention. Miramare is still the adored of poets and artists, and we believe that few other places in the world can impart the same sensations of wonder and delight.

Light That Rivals Sun

Most Powerful Ever Produced Seen

A new beacon light for lighthouses said to be the most powerful artificial light ever produced—sending a beam thirty miles in the air that can be seen for 140 miles at sea—was tested recently in Brooklyn and pronounced a success.

According to Mr. Sperry, the inventor, the new light will not only revolutionize navigation at sea near coasts, but will be of immense service to aviation and will make night flying at high altitude much safer than it is at present.

"Present lighthouses send horizontal beams," explained Mr. Sperry. "These are cut off by the horizon. The idea of the new beacon is a vertical swinging beam, which can be seen above a low lying fog—and most fogs are low lying—and which shows its position by the number of its swings, or beats a minute.

The light tested is of 1,400 million candle power, almost the strength of the sun's rays at the surface of the earth."

The new light is produced by a "chemical arc," which introduces certain gases into the electric arc which renders them incandescent. It takes twelve to fifteen horsepower to operate it, nine to even thousand watts, approximately. Its comparison with the ordinary household electric, which usually consumes forty to fifty watts, can readily be made.

Searchlights of the same type, Mr. Sperry said, were sent to London during the war for use against Zeppelins and were extremely effective. They drove the Zeppelins so high, he said, that on one occasion their engines froze and a whole fleet was put out of action.

Claim Electricity Will Replace Steam

Expense Attached to Making Change Is Hindering Development

The leading groups of the principal countries of the world into huge high-power transmission systems from which electrical energy sufficient to provide a large portion of commercial and transport needs could be taken is one of the problems which the International Electrical Conference in Paris had under discussion.

The meeting brought together delegates from 12 countries including the United States and Canada.

Electricity as a means of moving trains, ocean steamships and turning the wheels of industry is about to come into its own, according to the delegates, and the only thing that prevents tremendous developments in electric energy is the present high cost of materials and the expense attached to changing from steam and other methods to electricity.

The American delegates surprised the European experts when they outlined the extent to which electricity is used in work and the American people. The invasion of the American home by such labor-saving devices as electric stoves, dishwashers, irons, etc., amazed many of the delegates who represent countries where at yet electricity has not figured in the home except in supplying light.

The delegates were surprised at the progress made in electrical development in France since 1918. The use of French rivers in generating electric energy will eventually place France second to none in the manufacture of electricity, in the opinion of the delegates.

Real Thrift

Benjamin Franklin Certainly Set a Shining Example in Way of Economy

Benjamin Franklin, the American patron saint of Thrift, whose birthday was celebrated in the United States recently in Colonial days to glorify the nation's infancy and humorous allusions. The immortal printer wrote of his house-keeping while yet he was neither well-to-do nor well known:

"We kept no idle servants, our table was plain and simple, our furniture of the cheapest. For instance, my breakfast for a long time bread and milk (no tea), and I ate out of a two-penny earthen porringer with a pewter spoon. But mark how luxury and sloth, and idleness, and make a progress in spite of principle; being called one morning to breakfast, I found it in a china bowl with a spoon of silver! They had been bought for me without my knowledge by my wife, and had cost her the enormous sum of three and twenty shillings, for which she had no other excuse or apology to make but that she thought her husband deserved a silver spoon and china bowl of any of his neighbors."

Toronto Mail and Empire.

A Frenchman has invented a means of using the leaves and fibrous stems of banana plants as a substitute for flax. The material is said to be as good as flax for the manufacture of excellent for dresses, and to be far cheaper than wool or linen.

Wiping Out Mange In Cattle

Means Taken For Safeguarding the Health of Animals Used For Food

The magnitude of the work carried on by the Health of Animals Branch of the Dominion Department of Agriculture is well exemplified in the annual report of the Veterinary Director-General for the year 1920-21, recently issued. One of the tasks undertaken by the branch was the wiping out of mange on the range area of Alberta.

When it is stated that this area comprised 2,052 townships, approximately 74,935 square miles, a territory as large as Scotland, it will be understood what "magnitude" in this connection means. Very careful details had to be arranged. Dipping was made compulsory. New dipping vats were built, to the expense of which the department contributed \$400 each. No cattle had to be driven more than twelve miles to a vat, and every possible contingency was provided for. In these efforts the cattlemen cordially co-operated.

On June 24, 1921, 121 head had been dipped for the first time, and on July 2 and following days 187,914 were dipped for the second time. As a result, mange has been entirely eradicated and the restrictions have been removed.

Veterinary Director-General is further able to report that Canadian livestock retains its enviable reputation as among the healthiest in the world. None of the great animal plagues, such as rinderpest, foot and mouth disease, or contagious pneumonia, has made its appearance, and hog cholera and glanders exist only to a trifling extent.

The report also details the work performed during the year by the Pathological division, which includes the biological laboratory at Ottawa, the research station and the branch laboratories and by the meat and canned foods division, which certifies to the quality and wholesomeness of all manufactured food products and supervises the importation of meat and meat-food products, as well as fruits, vegetables, milk and milk products. The fact is noteworthy that Canada is the only country in the world that possesses a law setting out standards for the production of meat, which is her to food products must conform.

Toad Valuable on the Farm

Worth Good Money in Clearing Away Undesirable Pests.

It has been estimated that the value of a toad on the farm to the farmer is \$13.44. The service of the humble amphibian are worth good money in clearing away certain undesirable pests which are likely to give the farmer trouble and loss. It is no multitude in any sense of the word. It is fallacy that the toad exudes a poison which is responsible for the appearance of warts on the hands of anyone who handles it. The liquid is a milky substance which passes through the animal's skin when it is frightened and it has a slightly irritating effect upon the human flesh, but there is no danger in it. Toads usually stay around a place for many years if the environment is congenial to them. They are found in places where there have been seen years after year for 20 and 30 years—Columbus Dispatch.

Why Kettle Won't Burn You

Question Is Answered By Popular Science Monthly

Why can you put your finger on the bottom of a steaming teakettle without being burned? This question was sent to Popular Science Monthly which answers as follows:

Because the heat of the fire has been transferred from the kettle bottom to the water which is boiling and forming steam. It is for the same reason that kettles with soldered bottoms, and containing water, can be safely placed over a fire. The greed of the water for the heat carries it away so rapidly that the temperature of the metal is unable to rise high enough to melt the solder.

Raise Persian Lamb

With a capitalization of \$20,000 a new sales company has been organized to operate a Persian lamb farm in Saskatchewan. It will be known as the Persian Lamb Farm Limited.

The company has already started operations. A tract of land, 1,400 acres, has been purchased at Dollard, Sask., and 136 purebred Karakul sheep are now on it. The first of these arrived in Saskatchewan about a month ago.

France Approves Canadian Monument

Paris newspapers publish a reproduction of the monument the Canadian Government is erecting in memory of the Canadians who fell in the war. French opinion is, generally, that Vimy is the most proper of all suggested sites for the monument which is commended for its severe simplicity of design.

Get the Right Idea

Headmaster of an English School Offers a Solution of the Emigration Problem

"The dominions want brains, and a farming course should be introduced in the curriculum of all public schools," said Wm. Hulton Pyke, headmaster of Christ's Hospital-School at West Horsham, in offering a solution to the emigration problem as it exists in the United Kingdom at present.

Mr. Pyke advocated a wide copying of the example set at Horsaum, where boys had a chance to attend to the fells, the milking of cows and shoeing horses. With this sort of training he said, the dominions would get the type of emigrant desired, and as easy way would be provided to one of the callings which are not overworked either at home or in the dominions.

Want Public Bank in Alberta

The establishment of an Alberta chartered bank to be controlled and managed by the government of the province, was recommended by the all unanimous vote of the United Farmers' convention. It was the view of those participating in the debate that the present was an opportune time to take a step in the way of public control of the banks, and there was criticism of the existing banking system.

Sea Traffic Stopped

For the first time in many years, sea-borne traffic out of Denmark has been virtually stopped, as the sounds, harbors and the belts are icebound. Ferries connecting the Danish Islands with Germany, Norway and Sweden are frozen in, while icebreakers are attempting to free the boats into the safe fate.

In early times the diamond was created with power of guarding its wearer from poison, insanity, and timidity.

Aberdeen-Angus in Japan

Expert of Imperial Experiment Station Owns Private Herd

The only privately owned herd of Aberdeen-Angus in Japan is owned by Mr. Yoshitaka Haba, expert of the Imperial Livestock-Experiment Station, Director of Hiroshima Branch, Japan. Mr. Haba imported his herd from Scotland several years ago, and while beef raising on an island so thickly populated as Japan is not practical in the sense of the word we usually attribute to it on this side, the Duddies have shown adaptability to the conditions encountered there. As the milking qualities of the breed are well cultivated in Scotland where they are kept as general purpose cattle as well as beef animals, the question of their fitting into Japanese conditions has not arisen. Possibly the Imperial Government which also has a herd, may be planning their introduction into some of the newer Japanese territory lying between Siberia and China.

Conferences in Alberta

Mutual Problems Will Be Discussed at Important Points

Arrangements are being completed for the series of three conferences which are to be held under the auspices of the Alberta Department of Agriculture at important points in Southern Alberta, to which will be invited farmers business men, bankers, loan company representatives and others, to discuss mutual problems. These conferences are expected to be very largely attended, and will assume an important aspect in connection with the solution of Southern Alberta problems.

Calgary Stockyards

Business done at the Calgary stock yards during the year 1921 totaled \$5,843,104.66. The number of cattle sold at the yards during the year totaled 39,890. The number of hogs sold in 1921 was 48,528.

Sheep Spend More Time Grazing

than cattle or horses, and they will eat for twelve hours out of twenty-four.

Mexico has a tribe of Indians whose language is limited to about 100 words and who cannot count more than ten.

Want Government to Foot the Bill

Big Order, Says Greenfield, in Reply to Trustees Delegates

"I think when you ask the Provincial Government to foot the bills for 75 per cent of the cost of secondary education in the province, you are making a big order," declared Premier Greenfield, in answer to a delegation of town and city school trustees who waited on the cabinet from the Alberta Trustees Association.

"It all works down to this," said the premier, "it is a case either of increased taxation or living within our means, and I want to tell you now that the time has come when the province, the cities, towns and individuals must live within their incomes; must economize if we are to get out of the situation in which we find ourselves in after years of expansion."

Seaplanes For Forestry Patrols

Two large 'P3 seaplanes will be shipped from the Jericho air station, Vancouver, where they will be used during the coming summer in forestry operations and patrols.

The big planes will be used at Lake Winnipeg, where a new station has been established. These machines are the largest possessed by the Vancouver station, having cockpits for ten men.

Calgary Stockyards

Business done at the Calgary stock yards during the year 1921 totaled \$5,843,104.66. The number of cattle sold at the yards during the year totaled 39,890. The number of hogs sold in 1921 was 48,528.

Sheep spend more time grazing than cattle or horses, and they will eat for twelve hours out of twenty-four.

Mexico has a tribe of Indians whose language is limited to about 100 words and who cannot count more than ten.

The Weekly Provincial News Bulletin

During sessions of the municipal committee the past week, it was initiated by the Attorney-General and Hon. Mr. Reid, that the government proposed considering the framing of a model charter for the cities of the province.

Ranch For Sale--

One of the best ranches in the district. For price and particulars, inquire--

CHARLES BROWN,
Beaver Mines, Alta.

THE SALVATION ARMY

Meetings conducted in the L.O.O.F. hall every Sunday as follows:
11 a.m.—Holiness meeting.
3 p.m.—Sunday School.
7:30 p.m.—Great Salvation Meeting.
We believe all men may be saved. You are invited.
Captain R. Batterley and Lieut. W. Varlett, Commanding Officers.

Our Personal Guarantee to All Skin Sufferers

You have our absolute guarantee of relief from the first bottle of D. D. D. Your money will be refunded without a word if you do not find that the first bottle did not cure you. You also are our judge.

We have watched the action of this standard excellent ointment on the sick skin in hundreds of cases and we know. And if you are just crazy with itching or oozing, you will find relief and relief the moment you apply this ointment. Coming wash.

We have made fast friends of men who come to us recommending D. D. D. to a skin sufferer here and there, and we want you to try it now on your positive, speedy guarantee. From, it is better. Try D. D. D. Now.

BLAIRMORE PHARMACY
H. E. MURBURN, Coleman, Alta.

AUCTION SALE

Saturday & Monday
at 2 and 7 p.m.

We are going to sell to the highest bidder, without reserve, any article of our large stock of Men's Clothing and Furnishings, Boots and Shoes.

We realize that this is an extraordinary method in disposing of merchandise, but we also realize that conditions as they exist today demand something out of the ordinary. Consequently we have decided to grant the buying public the right to set their own price on any article they wish to buy.

This is a real opportunity to buy at prices which cannot help but satisfy when you are the judge.

A partial list of articles which will be sold:

FRED THAELL

(Successor to Thael and Risk)
Alberta Hotel Block — Blairmore

Having completed a four weeks tour of the province on C.P.R. lines, the special mixed farming train, operated under the auspices of the provincial department of agriculture and the C.P.R., has been pronounced by Dominion and Provincial officials who accompanied the train, as the most successful ever operated in the history of the province. The train completed its tour last week at Berwyn, which is at the end of the steel on the E.D. & B.C. In the Peace river country and it is significant that at this frontier town the largest meeting of farmers of the whole tour was experienced, there being over 700 at the three meetings held there. The train started at Acme on Jan. 24th, and covered along the Acme, Lacombe and Wetaskiwin branches of the C.P.R. as well as going south as far as High River and Vulcan, and north along the E.D. & B.C. to Grande Prairie. Good meetings were held at every point, even in spite of the very cold weather of some days.

The government's policy on technical education was outlined last week in a statement made by Hon. Perrin Baker, minister of education, to the newspapers, given in response to some criticism that the government was neglecting this branch of education.

"It is the intention to continue a vigorous policy on technical education," said Mr. Baker, "having due regard to the needs of the situation."

The resignation of D. A. Campbell, director of technical education for the province, who is to resume a position in the teaching profession in Ontario, where he taught previously for 26 years has been misinterpreted by some means that the government is throwing up its hands in the matter of technical education, but such is not the case, declares Mr. Baker.

Records of the department show that Alberta has not been behind in technical education in the past. In 1920 the province used \$22,874.21 from the dominion government, being 55 per cent of the total amount available. Quebec stood next having used 52 per cent of the amount available. B. C. used 44 per cent, Saskatchewan 1.5, Manitoba 9.2, Ontario 49 per cent, New Brunswick 11 per cent, Nova Scotia 28 per cent, Prince Edward Island nothing. In 1921 Alberta used the entire amount available from the Dominion government, being \$47,050 for the current year and \$65,508.80 remaining from 1920. Some idea of the work done in technical education since 1918 is given in the following figures:

In 1918 and 1919 commercial schools were in existence in Calgary, Edmonton and Lethbridge, day technical schools in Calgary and Edmonton and evening training schools in Calgary and Edmonton. In addition, 61 students were in attendance in night schools at other centres in the province. In 1920-1921 the enrolment in the commercial schools was: Calgary 262, Edmonton 212, Lethbridge 89; in technical day schools, Calgary 234, Edmonton 269; in provincial technical institute, Calgary, day 189, night 227, correspondence 220. In three part time schools, day Calgary 47, Edmonton 115, technical institute 24; in nine coal mining schools 161; in five steam engineering schools 109; in three night commercial schools, Calgary 202, Edmonton 47, Lethbridge 66, in seven motor engineering schools 188; in two correspondence schools 220. Vocational evening classes were carried on in 27 centres throughout the province.

Further extension of the work which has been accomplished by the public health nurses of the provincial department of health in the past two years, is being planned by the department for the coming year, it is announced.

During 1921, there were 16 of these public health nurses at work in the province, in addition to the district nurses who are doing pioneer work in the districts where no doctors reside. In 1922, it is the intention to have 21 public health nurses on duty in various parts of the province. It is also the intention of the department to establish public health stations at many points throughout the province, from where health literature will be distributed, and where periodical instruction by lecture and demonstration will be given by the public health nurses. It is proposed to invite the co-operation of volunteer organizations in the towns and districts in the establishment and maintenance of these public health stations, the purpose being to maintain some depot where information on public health matters may be obtained. This will obviate the necessity of delay in receiving information from the department, at Edmonton.

Something of the work of these public health nurses is told in reports recently prepared by the nurses' branch of the health department.

The health inspection of the schools in the various districts has been carried on during the year by 11 nurses, who have covered a large portion of the province with the use of a car. The number of school children inspected throughout the province last year was 10,485.

In addition to the clinical work done by the nurses in the various districts, two child welfare clinics were established permanently during the summer of 1920, one at Edmonton and the other at Medicine Hat. Babies and children of pre-school age are admitted to these clinics. Each child is given a complete physical examination and a record is kept of all cases. Defects are noted and treatment cases referred to the family doctor. Pre-natal clinics are held weekly, and many mothers are taking advantage of them. The total number in attendance at these clinics during 1921 was 7,737, there having been 201 clinics held. The nurses made 4,849 visits to the homes in the "follow-up" work from these clinics.

As many as 60 children have attended one of these clinics at one time. Three public health nurses are on duty at these clinics, those not engaged in clinics spending their time visiting the homes. On these visits mothers are given instruction in the care and feeding of children. In cases of illness, they show the mother how to give baths, take temperatures, erect group tents or give any other necessary instruction.

Gratifying results have been obtained from the work done by the public health nurses in malnutrition cases. These children report regularly to the clinics, and their diets are supervised by the doctors and nurses.

During the summer two nurses were equipped with a moving picture machine and a public health film and sent out to various parts of the province, the itinerary of one being through the Women's Institute, and the other through the U.F.W.A. The total attendance at these lectures was five thousand. As a result of these lectures, frequent requests have come into the main office asking for further information on pre-natal advice and child welfare.

Two public health nurses were detailed to accompany Health Exhibits through the province and to conduct baby clinics wherever possible with the aid of the local doctor. A great many babies were examined and a large number of healthy ones found.

The agricultural colleges of the province have each been supplied with a public health nurse to give a course of instruction in home nursing and first aid.

The work of the district nurses is being carried forward by the health department of the government with an even greater degree of vigor than in the past. This system of district nurses was established in 1920, to meet the demand for medical and nursing care in the frontier districts of the province.

Registered graduate nurses with special obstetrical training are sent to these districts where doctors do not reside, and they are called upon to exercise judgment, tact and endurance to no small degree. The department of health pays the full salary to these nurses and provides medical and surgical equipment, while the local authority in the district provides and furnishes a residence and assumes the responsibility of providing transportation. These nurses have performed heroic service and a service which has been especially valuable in the effort to reduce the rate of infant mortality.

Alberta stands fourth among the provinces in production of mineral, according to figures produced at the annual meeting of the Canadian mining institute at Ottawa. The mineral production of this province in 1921 was valued at \$29,000,000. Ontario was first with \$54,000,000 in production. In coal production Alberta stood first among the provinces in 1921, with a production of 5.8 million tons. Nova Scotia's output was 5.7 million tons.

Mayors of Lethbridge, Macleod, Granum, Claresholm and Okotoks have expressed opposition to the amendment to the utilities act of the province being asked by the Calgary gas company, which would permit the utilities board to change the rates for gas now in effect, in those towns, on application of the gas company.

Two carloads of oil sands from the Fort McMurray district have been shipped to a refinery at Denver, Col., for experimental purposes in the extraction of oil.

It is reported from Echant that a carload of lambs shipped by K. C. Engen, of that place brought the top market price in Lethbridge last week.

An interesting statement has been prepared by Premier Greenfield showing the amounts collected from cities, towns, villages and rural places in motor licenses, amusement tax and supplementary revenue during the year; and the amount per capita from each as based on population figures of the dominion government for 1921. This table of figures is as follows:

Motor Licenses--	Total	Capita
Cities	\$216,352	\$1.47
Towns	150,843	3.77
Villages	148,960	5.99
Rural Districts	181,265	.49
Amusement Taxes--		
Cities	\$133,313	\$.92
Towns	21,163	.53
Villages	5,066	.20
Rural Districts	21,559	.06
Supplementary Revenue--		
Cities	\$203,710	\$1.33
Towns	21,776	.54
Villages	9,224	.38
Rural Districts	1,217,014	3.28
Grand Total--		
Cities	\$ 553,376	\$3.77
Towns	193,782	4.84
Villages	163,250	6.53
Rural districts	1,419,833	3.83

A deputation of commercial travellers interviewed Hon. R. G. Reid, minister of health, last week with request for stricter supervision of sanitation in hotels throughout the country. They asked that the matter be taken out of the hands of local boards of health and looked after in some way by the government. Mr. Reid pointed out that aside from the financial problem of such an undertaking,

Public accounts for the past year tabled by Premier Greenfield in the house, show a deficit on operation of \$2,118,209.66, the total expenditure from general revenue account having been \$10,605,155.91 while the total revenue received was \$8,486,946.25. There is \$5,400,000 in outstanding accounts still to be collected from various sources.

Reciprocity Question Will Form Material For Debate At Ottawa

Ottawa.—The developments at Washington have brought declarations in regard to the reciprocity conversations which will be keenly discussed at Ottawa, and are likely to form material for debate in the coming session of Parliament. First comes the declaration by Mr. Fordney, chairman of the ways and means committee of the House of Representatives, that the United States is not prepared to discuss a general reciprocal trade agreement at the present time. Such a declaration on the part of Mr. Fordney did not cause any surprise. Mr. Fordney is an advocate of high tariffs. The emergency tariff bill which is pressing on Canadian exports of farm products in the United States bears his name. And it is not likely that Mr. Fordney's views on tariff legislation have lately undergone much change.

But, coupled with Mr. Fordney's declaration in this regard, is the intimation that President Harding has declared the intention to open negotiations with Canada, once the pending tariff bill becomes law.

Here, it is felt in Ottawa, now lies the crux of the situation. Under the new tariff bill, the President is to be given power to modify rates to a certain extent; and this, it is felt, is what this was an important factor in Mr. Fielding's recent interview with President Harding. Mr. Fielding holds strongly to the reciprocity pact of 1911. But, as there is apparently no chance of its being passed by the present Congress, it is thought Mr. Fielding will now turn his attention to such steps as may lead primarily to modification of the present heavy tariff on Canadian wheat and cattle.

What concession on the part of Canada Mr. Fielding would grant in order to pro quo remain yet to be seen. Nor is it likely that important developments are likely till the situation clears at Washington and the new tariff bill becomes law. But that there will be keen questioning in the House of Commons with requests for full information is accepted as beyond doubt.

Thankful for Good Will

Princess Mary and Viscount Lascelles

Now With us in Alone.

Shifnal, Eng.—The honeymoon of Princess Mary and Viscount Lascelles will be spent in seclusion at Weston Park. They expressed great gratitude for the tremendous display of good will at their wedding, but now they frankly wish to be left alone to their manor with its 11,000 acres of playgrounds.

There is no formality in the mansion and there are no court attendants or relatives. There are only a few servants, whose purpose is to make the seclusion of the pair absolute. The telephone has been disconnected in order to make them secure from outside intrusion. It is the purpose of the couple not to leave the manor for at least a few days. In the meantime the great estate offers all they want in the way of diversion and exercise.

SASKATCHEWAN WOMAN RECOVERS

Found Health by Taking Lydia E. Pinkham's Vegetable Compound

Malaya, Saskatchewan.—"I saw Lydia E. Pinkham's Vegetable Compound advertised for women's troubles and when a friend recommended it to me I tried it and it has done me so much good that I am sure it will make the seclusion of the pair absolute. The telephone has been disconnected in order to make them secure from outside intrusion. It is the purpose of the couple not to leave the manor for at least a few days. In the meantime the great estate offers all they want in the way of diversion and exercise."

These letters recommending Lydia E. Pinkham's Vegetable Compound ought to convince women of the great worth of this medicine in the treatment of ailments to which their sex are subject. Mrs. Thomas writes that she is suffering from troubles women often have, or feel all run down, without any ambition or energy for your regular work, take Lydia E. Pinkham's Vegetable Compound, it is a natural, reliable remedy for you. You see it has Mrs. Thomas and many, many other women.

The medicine has been helping sick women nearly fifty years—surely a long record of service.

AWARDED SEAT IN HOUSE OF LORDS

LADY RHONDDA FIRST WOMAN TO SIT IN UPPER HOUSE

London.—The petition of Lady Rhondda to sit in the House of Lords was granted by the committee on privileges of the House of Lords. It she takes the seat awarded her by this ruling she will be the first woman to sit in the upper-house of the British Parliament as Lady Astor was in the lower-chamber.

Lady Rhondda is the daughter of the late Viscount Rhondda, Great Britain's war-time food controller who died in 1918 from an illness brought on by overwork. He left no male heir, his only child being the daughter, wife of Sir Humphrey MacWorth.

After Lady Rhondda's right to the present title was established her counsel argued that the sex disqualification removal act clearly applied to a case like the present, and that the disability which in the past now being removed, Lady Rhondda was entitled to sit in the House of Lords. After further argument the attorney-general on behalf of the Crown, said he raised no objection to the petition, which was therefore granted. Lady Rhondda thus becomes the first woman to sit in the House of Lords.

Interviewed after the decision Lady Rhondda expressed her delight that the case had gone in her favor. The decision, it is presumed, affects all the peeresses in their own right in the United Kingdom. There are 23 of these.

COULDN'T DO HOUSEWORK, HEART WAS SO BAD

Many women get weak and run down and unable to look after their household duties owing to the heart action becoming impaired or to nervous system unstrung.

Nerve induced women to be strong, healthy and happy instead of sick and wretched. But how can a woman be strong and healthy when day in and day out she has to go through the same routine of work, sweeping, dusting, cooking, washing, etc. It is at this wonder that the heart becomes affected and she gets irritable and nervous, and she feels faint and dizzy spells, smothering and snoring spells and can't sleep at night. To all women whose heart is weak and whose nerves are unstrung, we would recommend

MILBURN'S

HEART AND NERVE PILLS

as the best remedy to tune up the system and strengthen the weakened organs.

Mrs. Daniel Benmore, Logansville, N.S., writes:—"As I was troubled with a weak heart for nearly two years I am willing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me."

"I could not sleep, I would take smothering spells, and was so weak I could not do my housework. I tried two doctors but got no results. A friend advised me to try your pills. I used them for a few days and I can tell you that they are the best remedy for heart trouble there is."

Price, 60c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The Mennonite Exodus

Winnipeg.—Marking the beginning of the Mennonite exodus from Manitoba, a party of the Old Colony Mennonites from Plum Coulee, Man., passed through here on the first stage of their journey to San Antonio, Mexico. They are travelling in a special train of 28 cars, bearing household effects and two passenger cars. About 200 persons compose the vanguard of the exodus.

Chinese Cabinet Without Head

Peking.—The Chinese Government virtually is not functioning. This is due to the fact that the cabinet is without a head, the treasury is empty, the suggested funding of loans is meeting with strong opposition and the president who is politically isolated, is unable to persuade anyone to accept the premiership.

General Semenov Coming to Canada

Vancouver, B.C.—A cable from Shanghai states that General Semenov, leader of the Siberian Cossacks, is a passenger on the Canadian Pacific line Empress of Russia, which recently cleared from that port. The purpose of his visit to this continent is not stated in the cable.

Big Gift to Hospital

New York.—A gift of \$4,000,000 to Johns Hopkins University of Baltimore for endowment, and buildings for the school of hygiene and public health, is announced by the Rockefeller Foundation.

May Abandon Coalition System

No Progress Towards Solution of British Political Crisis

London.—The political crisis projected by the Prime Minister has made no progress toward solution, and nobody ventures a prediction as to how it will eventually be solved. In its essence it is less a personal conflict between Mr. Lloyd and Sir George Younger, leader of the Conservative sectionists, than a symptom of the struggle on the part of the three principal parties, Conservative, Liberal and Labor, to abandon the Coalition system, which is generally considered to have outlived its usefulness and get back to the old party system.

In this struggle Mr. Lloyd George occupies somewhat an anomalous position inasmuch as, although head of the government, he has no direct control of the party funds or the electoral machinery since he is the accepted leader of neither the Conservative nor the Liberal party, each wing of the Coalition having retained its own party machinery.

Jeffre in Peking

Peking.—Marshall Jeffre of France is visiting Peking unofficially. He has received an enthusiastic welcome. Agents of the Far Eastern Republic are endeavoring through the medium of propaganda to create the impression that Marshall Jeffre's mission to the Orient is to form a Franco-Japanese military alliance against Soviet Russia.

Will Save Ten Million Sterling

London.—Sir Robert Borne, chancellor of the exchequer, told a question in the House of Commons that approximately £10,000,000 sterling would be saved on estimates for the forthcoming financial year as a consequence to the decision reached at the Washington conference.

Rescue Entombed Men

Grass Valley, Cal.—Three miners entombed at the 1,000 foot level of the Idaho-Maryland gold mine here were rescued unharmed after being buried for 14 hours. The men were not affected and proceeded to the surface without aid.

RHEUMATISM?

Health is the Most Valuable Asset You Have. You cannot afford to Neglect It.

Crofton, B. C.—"I was troubled for years with inflammatory rheumatism and rheumatic fever. I tried several cures for rheumatism, but did not receive any benefit from any of them. I had been in the hospital for months, being unable to walk. A friend advised me to try Dr. Pierce's Ankle Balm. After taking the first bottle I began to improve, and after taking six bottles I had no more rheumatism. I think Dr. Pierce's Ankle Balm is the most wonderful medicine that any one can take for rheumatism, and many other serious disturbances. This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs any one would do well to get Dr. Pierce's Ankle Balm, which are to be had nowadays at almost any drug store or send to Dr. Pierce's Laboratory in Bridgeport, Ore., for trial package and write for free, confidential medical advice."

People are realizing that the kidneys, just as do the bowels, should be flushed occasionally. The kidneys are an eliminative organ and are constantly working, expelling the poisons from the blood. Urine acid backs up into the system, causing rheumatism, neuritis, dropsy and many other serious disturbances.

This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs any one would do well to get Dr. Pierce's Ankle Balm, which are to be had nowadays at almost any drug store or send to Dr. Pierce's Laboratory in Bridgeport, Ore., for trial package and write for free, confidential medical advice."

Desire Participation

Paris.—It is understood that Argentina and Brazil have addressed to Italy a request for participation in the Geneva economic conference.

KING GEORGE SUES PRESIDENT HARDING

ASKS DAMAGES FOR ALLEGED NON-DELIVERY OF CORNED BEEF

Fort Worth, Tex.—King George of Great Britain, through his attorneys, has filed a suit in district court here against President Harding, asking damages of \$10,000 for the alleged non-delivery by the Rock Island Railroad of 64 cases of corned beef, during the war.

President Harding is a party to the suit because the railroad is the defendant and the United States Government had control of the railroad for a period during the war. King George was the only plaintiff named in the suit. According to the suit, the corned beef, which was to be shipped from here to Hoboken, N.J., never was delivered.

Would Eliminate

Option of Fine

Member for Roblin Advocates Jail Sentences for Bootleggers

Winnipeg.—Jail sentences without the option of a fine for all persons convicted of bootlegging in Manitoba is provided in a resolution to be brought before the provincial legislature by Major H. B. Richardson, member for Roblin. In his resolution Major Richardson points out bootlegging is a growing evil in Manitoba, a test in Manitoba and endangering the lives and health of the population.

When Does

Bronchial Trouble

Begin To Get Serious?

First it was a little throat tickle, then a cough which grows severe. This neglected, cough travels down the lungs and it's mighty hard to treat. To treat throat trouble right use Catarrhin. It heals the sore spots, allays irritation, eases the cough, makes breathing regular, clears out the phlegm and frees the nostrils from crusts and accumulations. You can prevent colds, and keep free from catarrh and bronchial trouble by frequently using Catarrhin—thousands prove this every day. 50¢ a bottle. Large bottle, \$1.00; medium size 50¢, small size 25¢.

Should Reach

Wage Agreement

Would Facilitate Making Contracts and Trip to Farmer

Victoria, B.C.—Unemployment in Canada at present is 5 or 6 per cent, greater than at the corresponding time last year. Bryce M. Stewart, director of employment service, Ottawa, told officials of the four western provinces of the employment service of Canada when the annual conference opened at the parliament buildings here.

Employers' or improvement, said Mr. Stewart, depend partly on employers' and employees' reaching agreements on wage scales to enable the making of contracts with some certainty as to future costs. Improvement in employment conditions in agricultural Canada, he continued, will be brought about by restoration of the farmers' purchasing power, either through better prices for farm produce or lower cost of commodities which the farmer must buy.

Wins Dog Derby

In Record Time

Morgan's Team Makes 200 Miles in 24 Hours 51 Minutes

The Pas.—C. B. Morgan's team, driven by Bill Grayson, finished first in the Pas dog derby, with all dogs in excellent condition. Grayson reports that he and Theo Dupas, driving the Dupas-Bancroft team, arrived at Ware House, fifty miles from The Pas on the return trip together, where he left Dupas and proceeded along with his team.

Morgan's team won last year's race. His time was 24 hours and 51 minutes for the 200 miles, establishing a world's record. Dupas, who finished second made the course in 25 hours and 35 minutes. His dogs were fresh and he himself is fairly well considering he came out of the hospital and started on the race.

Solomon Cook finished third in 27 hours and 1 minute with Francis fourth, his time being 27 hours and 14 minutes.

Cook and Pranteau both drove nine dogs, the former bringing one home on the sled, and the latter two. The driver of the winning teams fed three times during the trip.

Canada's Enormous Coal Reserves Add To Our National Wealth

Ottawa.—In the course of his address before the Canadian Institute of Mining and Metallurgy, C. V. Corless, president of the institute, referred to Canada's enormous pre-Cambrian area surrounding Hudson Bay, as a veritable treasure house of minerals, where real prospecting had scarcely begun. This area included the nickel mines at Sudbury, silver mines at Cobalt and gold mines at Porcupine, one of which might soon reach the position of the world's greatest producer.

Referring to the great pre-Cambrian area, which comprises 90 per cent of the province of Quebec, Mr. Corless predicted that enormous mineral treasures awaited discovery by "the thrifty people of this province."

Mr. Corless referred to the tremendous coal reserves in Canada, estimated at 1,234,000,000 tons or 25,000 times the present annual consumption. He pointed out that though Canada was spoken of as an agricultural country, only 15 per cent of the area of the Dominion was suitable for cultivation, while 90 per cent would undoubtedly produce great mineral wealth. He suggested that the mining industry should receive a large share of Government assistance.

GREECE RELEASES FRENCH STEAMSHIP

WAS SEIZED BY GREEK TORPEDO BOAT ON FEBRUARY 12

Athens.—The Greek Government has formally released the steamship Espoir which was captured by a Greek torpedo boat destroyer off the coast of Asia Minor on Feb. 12.

Seizure of the Espoir was the subject of two notes to Greece from the French Government, the first demanding release of the vessel and cargo and the second threatening retaliatory measures if the request was not granted. Allegations that contraband cargo was carried was denied.

Protest Against Drill Ground

Berlin.—The request of General de Goutte, commander of the allied troops on the Rhine, for new drill ground in the Rhine valley, has been protested against by the German Government. It is a violation of the treaty not in accord with the armistice agreement which did not obligate Germany to establish more drill places.

and Miss Margaret Egrindson, of
Westbowne, Manitoba, were united
in marriage at Ottawa on Febru-
ary the 24th.

A grand concert and supper
will be held in the Methodist
church at Bellevue on St. Patrick's
night. Supper will be
served at 5 o'clock. Concert at 8.

The Rockefeller Foundation has
given \$6,000,000 to Johns Hop-
kins University in Baltimore, to
perpetuate the school of Hygiene
and Public Health established
four years ago.

Exception to the attitude of
Mrs. Asquith in regard to Can-
adian laws is taken by the feder-
ated W. C. T. U. of Edmonton,
which at a meeting unanimously
adopted a resolution of protest
and went on record as strongly
disapproving of Mrs. Asquith
holding up Canadian laws to
ridicule.

The monthly meeting of the
Hillcrest Literary and Music
Society took place in the school-
house at Hillcrest last week. The
meeting was well attended.

Following are some of the subjects
considered during the meeting:
A well prepared and interesting
talk on "Steam" by A. N. Warrin-
er, of the Collieries office staff;
a novel and impressive reading on
"Kipling" by Mrs. Henderson;
Doc Holman and W. Hutchison.

Women who smoke cigarettes
can't be nice, but the women who
don't are.

The circulation of The Ente-
prise is increasing at the rate of
25 per week.

At the regular meeting of the
local I. O. O. F. lodge on Tuesday
night the third degree was con-
ferred on one candidate.

While the man who took mer-
cury in mistake for medicine will
recover, he probably can hope to
get better by degrees.

FOR SALE—Model "490"
Chevrolet, in good running order.
Apply to J. R. Smith, West Cana-
dian Collieries Ltd., Blaimore.

To clear away a bit of a snow
fall in New York city a week or
so ago, it took 16,000 men with
6,000 on a night shift, and cost
\$80,000.

R. W. Morgan is up from Pin-
cher Creek this week, assisting in
the setting up of the new Stude-
baker at the garage of the C. N.
Pass Motors.

It may be well to announce,
perhaps, that Princess Mary is
now married. She got married
some time recently to a guy
named Lascelles.

You can't expect the public to
give you a chance to deliver the
goods unless you give the public
an invitation. Make use of The
Enterprise columns.

They make a great how-de-do
down in the States about milk
walking. Why, up here we often
see such things as powder, paint,
and wigs both running and walk-
ing.

German reparations payments
to the allies in cash, kind and
cessions of estate property, between
the armistice and December the
31st, 1921, amounted to 6,487,860,
000 gold marks.

The regular monthly meeting of
the local chapter of the I. O. O. F.
will be held in the Mission Hall
on Tuesday evening next, the
14th, at which the election of
officers will take place.

hold an Easter Sale of hot cross
buns, candy and plants at the
Union church on Thursday April
13th. Bear the date in mind and
everybody come.

The American Legion, a steamer
of the Munson line, picked up a
wireless message at a distance of
more than 7000 miles. This is
the world's distance record for a
sea radio.

The Dominion annual press
convention will be held in Ottawa,
instead of Halifax, as at first in-
tended, and will meet on June
the 8th and 9th. The 1923 con-
vention will be held in Halifax.

Mark Jenkins is fixing up the
old, speeder formerly used by
Henderson & Hughes. He hopes
to have the machine in readiness
to join Fitzsimmons and Palmer
in their flight to Ottawa.

Two boys, each about twelve
years of age, plunged into a mine
shaft at Sydney Mines and were
instantly killed. They had left
their homes for school, and it was
24 hours afterwards that search
parties located the bodies.

A grand balloon and confetti
dance will be held in the Tustian
hall at Cowley on St. Patrick's
night. The double K. K. orchestra
will furnish music. This
dance is being given under the
auspices of the Cowley Baseball
Club by the ladies of Cowley.

Retailing---

—Is not buying low and selling high—

It is the process of buying products fairly and with the
smallest possible addition of cost transferring such pro-
ducts into consumable material.

Our every effort is endeavoring such a movement, and will
be borne out by the Quality—Service and Prices that may
be obtained at any of our stores.
